(b) The study and report must examine the use or potential use of autonomous vehicles in this state, including for private use and those used to transport property for hire or compensation in interstate commerce or to transport passengers for hire or compensation, the opportunity to generate state or local revenue from licensure, and the impact of such vehicles on roads and other transportation infrastructure, safety, employment, interstate commerce, food delivery, and hazardous waste.

(c) All appropriate state departments and agencies shall provide assistance to TACIR in connection with the study required by subsection (a).

(d) On or before January 15, 2027, TACIR shall report its findings and recommendations, including any proposed legislation, to the chair of the committee of the house of representatives having jurisdiction over transportation matters, the chair of the transportation and safety committee of the senate, and the legislative librarian.
