

HOUSE JOINT RESOLUTION 944

By Boyd

A RESOLUTION to recognize the nuclear energy industry in the State of Tennessee.

WHEREAS, the men and women of Tennessee have always answered America's call to service; and

WHEREAS, Tennessee opened the Atomic Age with Manhattan Project facilities that brought an end to World War II and ensured global peace for decades to win the Cold War, and the State continues to perform essential missions today; and

WHEREAS, Oak Ridge National Laboratory is the largest science and energy laboratory for the U.S. Department of Energy and conducts wide-ranging research to address the nation's energy, quantum computing, and security challenges to ensure America's future; and

WHEREAS, since 1943, the Y-12 National Security Complex has been a premier manufacturing complex dedicated to making America and the world a safe place, and it continues to fuel our nation's naval reactors; and

WHEREAS, United Cleanup Oak Ridge's successful cleanup of the former Manhattan Project-era K-25 Complex for the Department of Energy and transfer of land back to the local community has spurred \$12 billion in next-generation nuclear investments and a projected 4,000 new jobs in Tennessee; and

WHEREAS, the U.S. Department of Energy's continued investments in enduring national security, science, and environmental cleanup missions in Tennessee are the anchors of the nation's first Nuclear Innovation District; and

WHEREAS, Governor Bill Lee's bold vision with the General Assembly to create a "Nuclear Development Fund" to spur continued nuclear energy and supply-chain investments in

every corner of the Volunteer State has led to the American Nuclear Society naming Tennessee as "the epicenter" of nuclear innovation and investments; and

WHEREAS, America has called on Tennessee again to lead the way in restoring American dominance in reliable, advanced energy development investments; now, therefore,

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED FOURTEENTH GENERAL ASSEMBLY OF THE STATE OF TENNESSEE, THE SENATE CONCURRING, that we applaud the continued growth and expansion of the nuclear industry in the Volunteer State, thank its employees for their exemplary service to the citizens of the State of Tennessee and the world, and extend our best wishes for their continued success.

BE IT FURTHER RESOLVED, that an appropriate copy of this resolution be prepared for presentation with this final clause omitted from such copy and upon proper request made to the appropriate clerk, the language appearing immediately following the State seal appear without House or Senate designation.
