**69-9-607. Delivery of certificate – Security interests – Electronic lien and title system.**

(a) The certificate of title must be delivered to the owner of record in the event no security interest appears on the certificate. Otherwise, the certificate of title must be

delivered to the secured party of record upon the vessel as shown in the certificate and must be retained by the secured party of record until the security interest is discharged or released, at which time a notation must be made on the certificate of title, setting forth the fact that the security interest has been discharged or released, which must be signed by the secured party of record. If the certificate of title shows on its face one (1) or more security interests still outstanding, then the secured party of record must deliver the certificate of title to the secured party that is next in order of priority within ten (10) business days. If there are no more security interests still outstanding, then the secured party of record must deliver the certificate of title to the owner within ten (10) business days from the discharge or release of the security interest. Within thirty (30) days of the date the security interest is discharged or released, the secured party of record shall send notice of the discharge or release to the agency. Notwithstanding § 69-9-622, if the agency is not notified within seventy-two (72) hours from the date of discharge or release by a secured party whose security interest was discharged or released, then the secured party is subject only to a civil penalty not to exceed five hundred dollars (\$500).

(b) If a security interest that is subordinate to another outstanding security interest is discharged or released, then the holder of the subordinate security interest must immediately procure the certificate of title from the secured party in whose possession it is being held for the sole purpose of discharging the security interest as provided by subsection (a), and must return the certificate of title to the person from whom it was obtained, notifying the agency of the discharge of the security interest, or, in the alternative, the subordinate secured party may immediately forward to the agency a release setting forth the fact that the security interest has been discharged, which must be signed by the secured party, and the agency shall note the release of security interest upon the certificate of title when the certificate of title is next in the physical possession of the agency.

(c) The agency may procure and implement an electronic lien and title system to be used throughout the state. As used in this subsection (c), "electronic lien and title system" means a program that allows the exchange of lien and title information with secured parties and is used to create, save, alter, and transfer titles to property.

**69-9-608. Non-dealer transfers.**

(a) On or after July 1, 2027, a person shall not sell or otherwise transfer ownership a vessel without delivering to the purchaser or transferee a certificate of title with the assignment as is necessary to show title in the purchaser or transferee.

(b) On or after July 1, 2027, a person shall not purchase or otherwise acquire a vessel without applying for a certificate of title in the person's name within fifteen (15) days of the receipt of the vessel.

(c) The owner, at the time of delivery of the vessel, shall execute the assignment and warranty of title to the transferee in the space provided on the certificate of title.

(d) The transferee or purchaser, whether by operation of law or otherwise, shall obtain a new certificate of title by application to the agency accompanied by the required fee and upon the form or forms prescribed and furnished by the agency.

**66-9-609. Dealer transfers.**

(a) If the transferee of a vessel is a dealer who holds the same for resale, then the transferee is not required to obtain a new registration for the vessel or to obtain a new certificate of title. The dealer, upon transferring title or interest to another person, shall execute an assignment and warranty of title upon the certificate of title, if in the dealer's possession, or if in the possession of a secured party, the dealer shall execute a bill of sale and deliver the same to the person to whom the transfer is made, together with evidence of ownership. The application for title and registration must be signed by the owner, and the dealer shall, within thirty (30) business days, mail or deliver the application to the agency. The owner may execute a power of attorney to a dealer for the application for title and registration. Dealers shall maintain records of such

transactions for not less than three (3) years from the date of such transactions.

Records of transactions must be available for inspection by the agency.

(b) If a dealer buys or acquires a used vessel for the purpose of resale, and the vessel has been issued a certificate of title, which is to be surrendered to the dealer by the owner or the secured party at the time of delivery of the vessel, then the dealer is not required to send the certificate to the agency at that time. Upon the dealer transferring the vessel to another person other than by creation of a security interest, the transferee shall, within fifteen (15) business days, execute the assignment and warranty of title by the dealer, showing the names and addresses of the transferee and of a secured party and the date of the secured party's security agreement, in the spaces provided on the certificate or as the agency prescribes, and mail or deliver the certificate to the agency with the transferee's application for a new certificate of title.

**69-9-610. Titling out-of-state vessels.**

If an application for certificate of title is made to the agency for a vessel last previously registered in another state or a country other than the United States, then the application must contain or be accompanied by:

(1) A certificate of title issued by the other state or country other than the United States;

(2) Any other information or documents the agency reasonably requires to establish the ownership of the vessel and the existence or non-existence of security interests in it; or

(3) If the state or country other than the United States in which the vessel was last previously registered does not issue certificates of title, a proper bill of sale, certificate of origin, or sworn statement of ownership, or any evidence of ownership as may be required by the law of the state or country other than the United States from which the vessel was brought, plus any other information or

documents the agency reasonably requires to establish the ownership of the vessel and the existence or non-existence of security interests in it.

**69-9-611. Recordkeeping.**

(a) The agency shall maintain a record of all certificates of title issued by it:

(1) Under a distinctive title number assigned to a vessel;

(2) Under the identification number awarded to a vessel in accordance with the registration and numbering law of the state in which it is registered;

(3) Alphabetically, under the name of the owner of record; and

(4) In the discretion of the agency, in any other method it determines to be appropriate.

(b) Except as provided in § 10-7-504(a) and § 69-9-629, all records of the agency relating to the titling of vessels are public records open to public inspection during regular office hours.

**69-9-612. New vessels – Certificates of origin.**

(a) On or after July 1, 2027, a dealer shall not purchase or acquire a new vessel without obtaining from the seller a certificate of origin.

(b) On or after July 1, 2027, a manufacturer, importer, dealer, or other person shall not sell or otherwise transfer a new vessel to a dealer for purposes of display and resale, without delivering to the dealer a certificate of origin.

(c) On or after July 1, 2027, a private individual who manufactures vessels in this state for personal use or for another person, whether for sale or not, shall complete a builder's certificate.

(d) The certificate of origin must contain:

(1) A description of the vessel, including its trade name, if any, manufacturer's name, year, series or model, hull material, propulsion type, and manufacturer's hull identification number;

(2) Certification of the date of manufacture of the vessel;

(3) Certification of date of transfer of vessel and name and address of transferee;

(4) Certification that this was a transfer of vessel in ordinary trade and commerce;

(5) Signature and address of the transferor or a representative of the transferor; and

(6) On the manufacturer's or importer's certificate there must appear an assignment form, including the name and address of the transferee, a certification that the vessel is new, and a warranty that the title at the time of delivery is subject only to the security interests that are set forth in the assignment.

**69-9-613. Termination of ownership – Involuntary transfers.**

(a) If the ownership of a vessel is terminated in accordance with the terms of a security agreement by a secured party named in the certificate of title, then the secured party must promptly mail or deliver to the agency the last certificate of title, an application for a new title accompanied by the required fee, and an affidavit by the secured party or an authorized representative, setting forth the facts entitling the secured party to possession and ownership of the vessel, together with a copy of the journal entry, court order, or instrument upon which the claim of possession and ownership is founded. If the secured party cannot produce proof of ownership, then the secured party may submit to the agency such evidence available with the application, and the agency may, if it finds the evidence to be satisfactory proof of ownership, issue a new certificate of title.

(b) If a secured party succeeds to the interest of an owner in a vessel by operation of law and holds the vessel for resale, then the secured party is not required to secure a new certificate of title to the vessel; provided, that upon transfer to another

person, the secured party shall, within fifteen (15) days, mail or deliver to the transferee or to the agency the certificate, affidavit, and any other documents the agency requires.

**69-9-614. Effect of certificate of title.**

(a) On or after July 1, 2027, a person receiving a vessel from another person does not acquire a right, title, claim, or interest in or to the vessel until the person has applied for a certificate of title to the vessel or receives a certificate of origin for the vessel.

(b) A court must not recognize the right, title, claim, or interest of a person in or to a vessel sold, transferred, or encumbered on or after July 1, 2027, unless evidenced by:

- (1) A certificate of title or a certificate of origin; or
- (2) Admission in the pleadings or by stipulation of the parties.

**69-9-615. Security interests – Notation on certificate.**

(a) All security interests noted upon a certificate of title take priority according to the order of time in which they are noted on the certificate. These security interests are valid against the creditors of the owner of a vessel, subsequent purchasers of the vessel, and holders of subsequent security interests upon the vessel.

(b) If a new security interest, other than a security interest dependent solely upon possession, or a security interest of the state for taxes established pursuant to title 67, chapter 1, part 14, is placed on a vessel subject to titling under this part in a transaction not involving a change of ownership, then the owner must deliver the certificate of title, if in the owner's possession, to the secured party, who must forward the certificate of title, together with the required fee for noting the security interest on the certificate of title, with proof of the security interest required by the agency directly to the agency. The agency, when satisfied of the secured party's right to have the security interest noted on the certificate of title, shall note the security interest on the certificate of title and return the certificate of title to the secured party.

(c) If the certificate of title is in the possession of a prior secured party, the new or subordinate secured party must forward to the agency the required fee for noting the security interest, together with proof of the security interest required by the agency, and the agency, when satisfied of the right of the secured party to have the security interest noted on the certificate of title, must:

(1) Procure the certificate of title from the secured party in whose possession it is being held, for the sole purpose of noting the new security interest on the certificate of title;

(2) Return the certificate of title to the secured party from whom it was obtained; and

(3) Notify the new secured party of the fact that the security interest has been noted on the certificate of title.

**69-9-616. Assignments of security interests – Notation on certificate.**

(a) A secured party of a security interest, other than a security interest dependent solely upon possession, may assign title or interest in the vessel to a person other than the owner of record, without the consent and without affecting the interest of the owner of record. In this event, the person shall provide the owner of record written notice of the assignment, and deliver to the assignee an assignment of the security interest, which must be signed by the assignor. If the original certificate of title is in the assignor's possession, it must also be delivered to the assignee, who must forward the assignment, together with the certificate of title and proper fee for the notation of a security interest to the agency, who must note the new security interest on the certificate of title in place of the security interest shown in favor of the assignor and return the same to the assignee.

(b) If the original certificate of title is not in the possession of the assignor, then the assignee must forward the assignment, together with the fee for noting a security interest on the certificate of title, to the agency, which must procure the certificate of title

from the person in whose possession it is being held for the sole purpose of noting the new security interest in place of the security interest in favor of the assignor. The agency shall return the certificate of title to the person from whom it was obtained and notify the assignee of this security interest that the security interest has been noted on the certificate of title.

(c) The assignee of a security interest is entitled to the same priority among the outstanding secured parties and has all the other property rights as had formerly been held by the assignor.

(d) Notwithstanding this section to the contrary, in the case of a transaction, or series of related transactions, in which security interests are assigned on more than fifty (50) vessels, regardless of whether any of the vessels are owned by or registered to residents of this state or covered by certificates of title issued by this state, the assignor in the transaction or series of transactions may assign the security interest on the related vessel to a person other than the owner of record, without the consent and without affecting the interest of the owner of record. Such assignment must be made in the same manner as provided in § 55-3-124(c) for multiple vehicle lien assignments.

**69-9-617. Perfection of security interests – Constructive notice – Savings clause.**

(a) A security interest in a vessel of the type for which a certificate of title is required is perfected and valid against subsequent creditors of the owner, subsequent transferees, and the holders of security interests and liens on the vessel by compliance with this section.

(b)

(1) A security interest is perfected by delivery to the agency of the existing certificate of title, if any, title extension form, or certificate of origin and an application for a certificate of title containing the name and address of the holder of a security interest and the information listed in § 69-9-604 and the required fee.

(2) The security interest is perfected as of the date of delivery to the agency. By receiving the application, the transfer of title and any security interests noted on the certificate are deemed perfected, subject only to the action of the agency in declining for good cause shown to issue the certificate to note the security interest on the certificate.

(3)

(A) Notwithstanding another law to the contrary, a second or other junior security interest in a vessel of the type for which a certificate of title is required is not perfected until the security interest is physically noted on the certificate of title for the vessel. In the case of a second or other junior security interest, there is no constructive notice of the second or other junior security interest unless that security interest is physically noted on the certificate of title.

(B) Subdivision (b)(3)(A) does not have any effect on perfection and constructive notice concerning security interests held by secured parties of record.

(c) If a security interest is perfected as provided for in this section, then it constitutes notice of all security interests against the vessel described in the security interest to creditors of the owner, to subsequent purchasers, and encumbrances, except security interests as may be authorized by law dependent upon possession. Constructive notice dates from the time of first delivery of the request for the notation of the security interest upon the certificate of title by the agency as shown by the endorsements of the date of delivery on the document.

(d) The method provided in this section of obtaining a security interest upon a vessel subject to titling under this part is exclusive except as to security interests depending upon possession and the lien of the state for taxes established pursuant to title 67, chapter 1, part 14.

(e)

(1) The rights, duties, and interests flowing from a transaction, certificate of title, or record relating to a vessel that was validly entered into or created before July 1, 2027, and would be subject to this part if it had been entered into or created on or after the effective date of this act, remain valid on and after July 1, 2027.

(2) This part does not affect an action or proceeding commenced before July 1, 2027.

(3) Except as otherwise provided in subdivision (e)(4), a security interest that is enforceable immediately before July 1, 2027, and would have priority over the rights of a person that becomes a creditor at that time is a perfected security interest under this part.

(4) A security interest perfected immediately before July 1, 2027, remains perfected until the earlier of:

(A) The time perfection would have ceased under the law under which the security interest was perfected; or

(B) July 1, 2030.

(5) This part does not affect the priority of a security interest in a vessel if immediately before July 1, 2027, the security interest is enforceable and perfected, and that priority is established.

**69-9-618. Replacement certificate of title.**

(a) If a certificate of title is lost, stolen, mutilated, destroyed, or becomes illegible, the secured party of record or, if there is not a secured party of record, then the owner of record or legal representative of the owner of record named in the certificate, as shown by the records of the agency, may obtain a replacement title by applying to the agency and furnishing the prescribed fee and information required by § 69-9-604 and the

circumstances of its loss, theft, mutilation, destruction, or illegibility as required by the agency.

(b) Upon issuance of any replacement certificate of title, the previous certificate that was issued is deemed void.

(c) A replacement title must have the word "duplicate" clearly marked on its face.

**69-9-619. Cancellation of certificate of title.**
